

Wednesdays • 6:30-8:30 p.m. • February 7, 14, 21, 28, 2018

Class cost \$130, includes book • Register at City of DuPont • dupontwa.gov

Is your new digital camera still a mystery?

Do you wonder what other kinds of equipment would help you get stellar shots?

Don't know what a 'raw' image is and why on earth you'd want one?

Join DuPont photographer Kate Lynch for tips about capturing great images with your digital camera and what to do with them afterward. Textbook will be provided. Your camera should be one that you can change settings, such as ISO, shutter speed and aperture. **Class will also include a weekend field trip - to be decided at the first class.**

What to bring:

Camera, lenses, extras (flash, tripod, etc.)

Yourself and your sense of wonder

This is not a class for cel phone camera users
